gastro mk

Now let us introduce you to the most famous foodie part of maison mk ..

gastro mk !

maison mk was all about creating the ideal chilled & relaxed, professional hotel home, some call it 'barefoot 5 star'. We wanted gastro mk to have the same spirit - heartfelt, great food, but without attitude.

Aimed at those who care about modern cuisine, and expect subtle Moroccan influences within carefully balanced European style dishes.

Our guests usually come to us a bit 'tagined out' so we wanted to offer something light and delicate that meets the expectations of an international audience.

Everything is cooked to order, using fresh local ingredients that are available, and we are passionate about what we put on your plate.

We hope you like the results.

Bon appétit!

We first came to Marrakech in 2005 on a fashion shoot for London magazine & fell in love with this vibrant, chaotic city. Immediately we were captivated.

We bought a sad, dilapidated old house that had not been lived in for 14 years, but we could see its fabulous potential shining through the years of decay & dust. Two years of heavy renovations later and we opened in March 2008. Now our gorgeous house is re-born & looking all shiny & pretty & chic.

It's been an amazing time for us at maison mk and it continues to develop. Thrilled to be voted one of the "World's Best 100 Hotels" by the Sunday Times Travel magazine within six months of opening, we have also been no.1 on tripadvisor for the maison, spa or gastro, since 2009. Jamie Oliver used us last year for the filming of his "Jamie does . . .Marrakech" programme for channel 4.

Who knows what the future holds, but we bet it will be fun !

We welcome you to maison mk,
our house in MarraKech
